LinkedIn: linkedin.com/in/isurunuwanthilaka — GitHub: github.com/isurunuwanthilaka

Location: Sri Lanka

PROFESSIONAL SUMMARY

Technical Lead with 6+ years of experience in software engineering and AI/ML. Currently leading AI initiatives at Rootcode AI. Proven track record in system architecture, team leadership, and delivering scalable enterprise solutions. Expertise in AI/ML, Java, Python, cloud technologies, and microservices architecture.

TECHNICAL SKILLS

Programming Languages: Python, Java, PHP, JavaScript, Go

AI/ML Technologies: Deep Learning, Generative AI, Agentic AI

Frameworks & Libraries: Spring Boot, React, GraphQL

Databases: PostgreSQL, MySQL, MongoDB

Cloud & DevOps: AWS, Docker, Jenkins, Ansible, CI/CD

Architecture: Microservices, System Design, RESTful APIs

EDUCATION

- **Master of Science in Computer Science** – Software Architecture Specialization
University of Moratuwa, Sri Lanka
2021 - 2023
- **Bachelor of Science (Honours) in Engineering** – Electronic and Telecommunication Engineering
University of Moratuwa, Sri Lanka
2015 - 2019
- **GCE Advanced Level**
Ananda College, Colombo 10, Sri Lanka
2014
Ranked 36th in Sri Lanka, 4 A passes in Combined Mathematics, Physics, Chemistry, General English

PROFESSIONAL EXPERIENCE

- **Technical Lead - AI**
Rootcode AI, Sri Lanka
2025 Nov - Present
 - Lead AI initiatives and technical teams in developing cutting-edge artificial intelligence solutions
 - Design and implement Gen AI/Agentic AI applications for European enterprise clients
 - Architect scalable AI systems and oversee technical strategy for AI projects
 - Mentor engineering teams and drive adoption of AI/ML best practices

Technologies: Python, TensorFlow, PyTorch, Deep Learning, NLP, Computer Vision, AWS
- **Technical Lead**
Cut+Dry Inc, San Francisco, CA (Remote)
2024 Oct - 2025 Nov
 - Led technical teams (Feature pod and Payment pod) and drove key architectural decisions for enterprise B2B solutions
 - Designed and implemented features for payment processing and data integration platforms

- Collaborated with stakeholders to align technical solutions with business objectives

Technologies: Java, Spring Boot, PHP, React, GraphQL, PostgreSQL, System Architecture

- **Software Engineer II**

Cut+Dry Inc, San Francisco, CA (Remote)

2021 Oct - 2024 Oct

- Developed and maintained payment processing systems
- Built data integration pipelines and ETL processes for enterprise clients
- Implemented GraphQL APIs and microservices for core business functions
- Contributed to architectural decisions for scalability and performance optimization

Technologies: Java, Spring Boot, PHP, React, GraphQL, MySQL, Docker

- **Software Engineer**

MillenniumIT ESP, Sri Lanka

March 2020 - September 2021

- Designed and developed microservices for PeoTV Go OTT streaming platform
- Implemented RESTful APIs and backend services using Spring Boot
- Collaborated with DevOps team for CI/CD pipeline setup and deployment automation
- Optimized database queries and improved system performance

Technologies: Java 11, Spring Boot, PostgreSQL, Docker, Python, Go, Jenkins

- **Software Engineering Intern**

MillenniumIT ESP, Sri Lanka

June 2018 - December 2018

- Implemented and integrated MiWiFi Quota Management System
- Developed backend services and database integration using Java and PostgreSQL
- Worked with AAA server (Radiator) for authentication and authorization

Technologies: Java 8, Docker, PostgreSQL, Scala, Python, Go

KEY PROJECTS

- **AI/ML Solutions Development** – Rootcode AI (2025 - Present)

- Leading development of enterprise AI solutions using open-source LLM models by finetuning
- Designing AI architectures for multiple applications.

- **Payment Processing Platform** – Cut+Dry Inc (2021 - 2024)

- Developed payment processing infrastructure handling high-volume transactions
- Built integration hub connecting multiple third-party payment providers
- Implemented data analytics pipelines for business intelligence

- **PeoTV Go OTT Platform** – MillenniumIT ESP (2020 - 2021)

- Developed microservices architecture for streaming platform serving SLTMobitel
- Implemented RESTful APIs and backend services with Java Spring Boot
- Deployed using Docker, Jenkins, and Ansible automation

- **Smart City Planning ML Model** – Dialog Datathon (2019)

- Developed machine learning models for urban planning based on CDR data analysis
- Used Python, Pandas, Scikit-learn for data processing and model development

CERTIFICATIONS

- **Deep Learning Nanodegree** – Udacity, 2020
Neural Networks, CNN, RNN, GAN, AWS SageMaker deployment
- **Convolutional Neural Networks** – Coursera (DeepLearning.ai), 2019
- **Machine Learning** – Coursera (Stanford University, Andrew Ng), 2018
- **Core Database Concepts** – Coursera (Arizona State University), 2019

AWARDS AND RECOGNITION

- **IEEEExtreme 11.0** – World Rank 324 (2018)
24-hour international programming competition, University of Moratuwa
- **MoraExtreme Programming Competition** – 2nd Place (2017), 6th Place (2016)
University of Moratuwa competitive programming competition
- **Dialog Merit Scholarship** – 2012
Awarded for academic excellence at GCE Ordinary Level
